

We have started a collective buying group
... for bulk foods
... and common household items

We plan on becoming a registered co-op

Why a collective/co-op?

- **For our community:**
a not-for-profit that gives back any surplus
- **For our pockets:**
buying in bulk reduces cost
- **For our planet:**
minimal packaging and food-miles
- **For our wellbeing:**
buying organic when it's affordable

We:

- started in December 2018 with some basic dry foods
- are expanding the range over time
- distribute from Wonthaggi once a month
